

APPOINTMENT OF NEARLY 400 DEPUTIES IN COUNTY REVOKED BY SHERIFF SHAW

Usurpation of Authority By
Criminally Inclined Is
Cause.

ONLY THREE ARE LEFT

Cases Have Been Reported to the
Sheriff's Office of Persons Using
Office For Purpose of Swindling and
Robbing Homes and Citizens.

Because of the usurpation of authority by persons representing themselves to be officers for the purpose of playing the notorious business of holdup and swindle, several cases of which have been reported to him, Sheriff Ira I. Shaw of Fayette county this afternoon issued an order revoking the appointment of every deputy sheriff in the county with the exception of three directly connected with his office, William McClelland, Edward Brady and William Wilson.

About 400 persons, in all parts of the county, are affected. Not out after today is clothed with authority vested in a deputy, Mr. Shaw said.

No further appointments will be made, the sheriff said, until the situation has become clarified.

"It is merely an instance of where the innocent must suffer with the guilty," the sheriff said. "We have some of the best men to be found anywhere in the county but the situation at present is such that there is no recourse but to revoke all appointments and get things straightened out before any more are appointed or any reappointed."

After this date, the sheriff said, no authority will be vested in any officer who has been working out of the sheriff's office but the three regular deputies above named and that "anyone exercising this authority will be dealt with according to law."

R. M. Armstrong and C. H. Chorpene
Installing Plant in City.

R. M. Armstrong and C. H. Chorpene, who have been interested for some time in wireless telegraphy and telephony, are preparing to engage in the manufacture of wireless apparatus at 115 West Church place. They have developed a wireless telephone sending set that has a range of 20 to 50 miles and is so compact that it can be carried in an ordinary bag. With the system either voice or telegraph signals may be used. With a set similar to the above Mr. Chorpene was able to communicate with other amateurs at a distance of 300 miles, by using telegraph signals.

The new company is installing a 500-watt telephone set to be used for advertising purposes and will have a range of a thousand miles or more.

JUNIATA BOY OF 12 DROWNS IN EFFORT TO SAVE LITTLE SISTER; FATHER RESCUES HER

Peter Vanusek, 12 years old, son of Peter and Susie Vanusek of Juniata, was drowned yesterday afternoon in the H. C. Frick reservoir at Juniata. His smaller sister had a narrow escape from meeting a similar fate. Her father, who was with her, saw her just as she was about to go under the water but was unable to rescue her.

According to reports received here of the drowning Peter Vanusek was trying to get his sister off the melting ice on the reservoir. He had on a pair of large rubber shoes which his brother wore in the mines. The shoes filled with water and were a hindrance to him. It was about an hour and a half before his body was removed from the reservoir.

BISHOP POST OF LEGION APPROVES STATE BONUS BILL

The members of Milton LaFayette Bishop Post No. 501, the American Legion, have given their approval to the program the legislative committee of the state department has caused to be introduced in the General Assembly now in session at Harrisburg. At the monthly meeting of the post held on Thursday evening instructions were given the adjutant of the post to write to the members of the House and Senate from the districts of Fayette county requesting their support of the measure.

Those include a bill to give a bonus of \$10 per month for each month of service in the United States and \$15 for each month spent overseas, also a bill to provide for an amendment to the state constitution authorizing a bond issue of \$15,000,000 to provide funds for paying the bonus. Another bill makes it unlawful for any person not a member of the Legion, or persons who are 60 days delinquent in the payment of membership dues, wearing the insignia of the organization.

It had been planned at this meeting to take action with a view to providing a series of weekly entertainments, but on account of the absence of Father E. A. Glennon, chaplain and chairman of the committee, nothing was done along this line. Among the projects under consideration, as a means of swelling the building fund of the post, is a banquet and fair. No details have yet been worked out and will not be until later.

The spirit of the Legion is to assist in every way the organization can to make the way easier for its members who still suffer or have had their health impaired by wounds or illness contracted in the line of duty. This was manifested in the passage of a resolution authorizing the cancellation of all dues by members who come under this classification. At present there are three such members on the roster of Bishop post.

Solitary Confinement to Be Tried.

By Associated Press.
MOUNDSVILLE, W. Va., Feb. 5.—W. H. (Holly) Griffith, who on January 6 escaped from the state prison after it had been freed and an inmate killed, is now back. This morning shortly after 9 o'clock Deputy Captain of Guards E. W. Athey, accompanied by Warden J. Z. Terebell, drove up in front of the prison with Griffith in the warden's car, attracting little attention. The warden's chauffeur and the Baltimore & Ohio train at Wheeling and started the dual lap of the trip from Greenwood, S. C. The prisoner was placed in solitary confinement.

Wade Roush, father of Ira Roush of Antiquity, O., the young man who was killed a few nights after Griffith escaped from the penitentiary, was at the prison when Griffith was brought in from South Carolina where he had been captured. With Mr. Roush was Sullivan Sayre. Roush and Sayre identified the coat that Griffith wore as being the coat Ira Roush had in his boat just before he was killed. Roush and Sayre said that Griffith had slept with Ira Roush the night before they started for Boone, Pleasure, where they declared Roush was killed. R. G. Athey, who brought Griffith from South Carolina, said Griffith wanted to leave the boat behind.

"We want to try this man in Mason county," said Ira Roush and the prosecutor will call a special grand jury. Warden Terebell said he was willing to have Griffith go on trial at Point Pleasant and it is possible that he will be arraigned next week.

Lindley Property Goes to J. L. Evans; Will Build There

A thought is being given today that the Lindley property at the corner of Prospect street and East Church avenue had been purchased by Robert Morris, the deal is being made out to J. L. Evans and the site will be used for the erection of a building where Mr. Evans and S. P. Ayde will conduct an automobile business.

The property was purchased from Fred Piesche following the sale of the old James property by Mr. Evans to the Zimmerman-Wild furniture company. The Evans property had previously been sold by Mr. Morris and W. D. McMillan to J. L. Evans, where it had been the intention of erecting the substructure.

It is understood that the Methodist Episcopal church, recently sold to Robert Morris will be converted into a garage by W. D. McMillan, owner of the Central Motor company. The better service station now conducted in East Crawford avenue will be moved there, it is said.

PAPERS SIGNED IN DEAL FOR HOTEL ROYAL PROPERTY

Price Paid by Motion Picture Men Is
Held as Record One in Connellsville Realty Annals.

The deal for the transfer of the Hotel Royal property from Rockwell Marietta and A. D. Solson to P. Mikalaras and Gus Marakas, proprietors of the Orphanum theatre, was signed Thursday night in the office of R. S. Matthews and thereby was closed what is deemed to have been the largest realty deal in the history of Connellsville. The price paid was \$100,000. The Marietta apartment building, better known as the White Front is said to have been the record before at \$80,000. It was owned by Mr. Marietta.

In connection with the deal for the hotel Mr. Mikalaras and Mr. Marakas purchased from Mr. Solson the strip of vacant ground in the rear of the Solson residence measuring 35x23 feet for which they paid \$5,000, or \$5.50 a square foot.

The Hotel Royal formerly the Marietta hotel, was re-erected by Rockwell Marietta 40 years ago. The first structure was a two-story one. Later two stories were added. Quilman Marietta, a brother of the builder, was the first proprietor. He was succeeded by Harry Marietta, son of the former mayor, and then A. D. Solson, contractor. Mr. Marietta held a two-thirds interest in the property. Mr. Solson owned one-third. They were the owners of the theatre building which now becomes the property of Mr. Mikalaras and Mr. Marakas.

"One of your local papers, The Courier," Miss McKenzie said, "is one of the finest in the country. It is read in all parts of the nation by agriculturists and is known everywhere by industrial men. The people of Connellsville ought to appreciate such an excellent product."

ANNUAL FIELD DAY OF ANTI-SALOONISTS SCHEDULED SUNDAY

Speakers to Occupy Pulpits of
Nine Churches Morning
and Evening.

Tomorrow has been set aside by the churches at Connellsville as the field day for the Pennsylvania Anti-Saloon league, and representatives of that organization will be in the pulpits of nine of the Protestant churches. The morning and evening services will be used to explain the progress of the prohibition work and the steps that must be taken to complete the task of making America dry, as well as stating the movement in other countries.

Leading the delegation of speakers who will be heard in Connellsville is Major R. Patterson, ex-governor of Tennessee. Governor Patterson was

Ex-Gov. R. Patterson

formerly a staunch supporter of the "personal liberty" side of the liquor question, and as chief executive of Tennessee defended the wet side. He became converted to the argument of the "dry" side, the good of society outweighing the personal element, and is today considered by the league one of the most attractive platform and pulpit speakers that it presents.

Gov. Patterson will speak in the First Presbyterian church with Rev. J. L. Frouth at 11 o'clock tomorrow morning and in the First Methodist Episcopal church with Rev. B. W. Hutchinson at 7:30 in the evening.

Rev. C. H. Brandt, D. D. of Altoona, one of the officers of the Pennsylvania league and a pioneer in the movement will speak in the First Christian church at 10:10 in the morning with Rev. G. W. Buckner in charge, while in the evening Dr. Brandt will be heard in Trinity Reformed church.

Rev. N. T. Yelver, D. D., for a number of years a missionary in India will present the personal and the First United Presbyterian church with Rev. J. P. Scott in charge on Sunday morning, while in the evening he will be with his personal friend, Rev. W. H. Metrick in Trinity Lutheran church.

Rev. C. L. Wright, D. D., a former Pittsburgh pastor who spent two years with the Red Cross in France and Germany during the war, will speak in the United Brethren church with Rev. J. S. Showers in the morning and in the First Baptist church in the evening. Both Rev. Yelver and Rev. Wright will give personal references to the conditions in Europe and Asia.

The last of the corps of speakers is Prof. Dana Z. Robert, a Pittsburgh educator, who will be heard in the Church of the Brethren in the morning. Mr. Robert is a Juniata college graduate and has been actively associated with the league for several years.

MAKE NO MISTAKE BY INVESTIGATING RESURFACING PLAN

Says John M. Young, Now Resident
of Town Where the
System is in Use.

KICKERS NOW BOOSTERS

Former Opponents of the Method in
Buchannon, W. Va. Are Loud in
Praise of Finished Product; Easily
and Quickly Applied to Worn Streets.

Further proof of the satisfactory character of the asphaltic resurfacing method applied to the repair of brick streets, has been furnished from a point nearer Connellsville than Peoria, Ill., and by a former and well known resident of our own city.

Writing from Buchannon, W. Va., where he is located as manager for the Grayson cement company, an enterprise of Connellsville men, John M. Young, formerly a resident of East Green street, manifests his interest in the subject recently brought to the attention of our city council and gives information concerning the resurfacing method from a somewhat different point of view than that of the city engineer of Peoria, whose letter was published in these columns a few days ago. In his letter Mr. Young says:

"I have been noting with interest your discussions pertaining to the resurfacing of worn brick streets with asphaltic cement. As a citizen of a town which has just installed several of these streets, I want to tell the good people of Connellsville that I believe they will be making no mistake by investigating and eventually adopting this method of repairing streets."

"The contract for the repair of the streets of Buchannon, which were in very much the same condition as Pittsburgh street and Crawford avenue in Connellsville are now, was awarded to an Ohio firm. The contractors followed the plan employed by Peoria, Ill., by washing the bricks before applying the binder course, then finishing with a heavier wearing course, guaranteeing their work for a period of five years. The process is easily performed. At points where the brick foundation had become worn away a section of cement base was laid and the whole street brought to a smooth, even surface."

"The time required to repair the streets by this method is much less than by any other and, so far as I have learned, has been entirely satisfactory; wherever tried Chicago has 10,000,000 square yards of this kind of paving and New York has 25,000,000 square yards.

"I am not a booster of these streets for any reason other than that with me 'seeing is believing.' I wish to add, however, that the people of this town who most strenuously opposed using this method are now among those most ardent in their praise of the finished product."

"I trust the citizens of Connellsville who are really interested in the betterment of the city's street will investigate this proposition thoroughly, either here in Buchannon or elsewhere, before they will make no mistake in doing so."

The Newest of Gage Hats

We are showing Gage Hats in an assortment of the newest styles, colors and materials particularly adapted for the Spring Season of 1921.

The millinery dollar here reaches the limit of its purchasing power, for in addition to securing hats of unquestioned value and of a high grade of material and workmanship, you get that assurance of authoritative style which adds so greatly to the value of any purchase and which attaches to any model bearing the Gage Label.

The selection we have received includes smart styles in the close-fitting and medium brim models that are so popular for early Spring wear.

Some of the hats are made from Gros de Londres and Fallie silk combined with braids. There are also fancy straw and silk hats trimmed with the new colophon pins and with ornaments and flowers. Bright colored hats predominate. Kande Cloth, a new fabric particularly adapted for Spring, is especially featured.

The colors represented are the newest of the Leather shades, including burnt orange, the pheasant shades and golden brown; also coral, henna, navy, brown, deift blue and black, all popular, seasonable and wearable.

Come in and let us show you a line of hats whose world-wide reputation is firmly established.

Children's Ailments

DISORDERS of the stomach and constipation are the most common diseases of children. To correct them you will find nothing better than Chamberlain's Tablets. One tablet at bed time will do the work and will make your child bright and cheerful the following morning. Do not punish your children by giving them castor oil. Chamberlain's Tablets are better and more pleasant to take.

HEALTH FOR WORKING GIRLS

Those Who Suffer and Are

Helpful Suggestions

Springfield, Ill.—"I had periodic trouble with weakness, cramps and backache, and I could not work. A neighbor recommended your medicine and I took four bottles of Lydia E. Pinkham's Vegetable Compound. I am now strong and well, able to work, and recommend your medicine to my friends."—ANNA RIMKUS, R. R. No. 8, Springfield, Ill.

Why will girls continue to suffer month in and month out as Miss Rimkus did when ease after ease is related where Lydia E. Effects of Constipation.
Constipation causes a stoppage of the sewerage system of the body. The poisonous refuse matter that should be carried away is retained in the system and often poisons the blood and causes numerous disorders. No one can afford to neglect his bowels. A dose of Chamberlain's Tablets will afford relief. Avoid drastic cathartics as they take too much water out of the system and their use is likely to be followed by constipation.—Adv.
